PLACERVILLE, EL DORADO COUNTY, CALIFORNIA, WEDNESDAY, JULY 13, 1938

NUMBER 160

RIVER VICTIM UNIDENTIFIED

Foul Play Evidence Lacking But Appearances Indicate Possibility Of Robbery

The body of an unidentified man lies in a rubber sheet beneath a small mound of sand on the Middle Fork of the American River below Cock Robin Point, while Coroner A. J. Orelli seeks to learn his name and something about him.

The man is described as being about 70 years old. He was about five feet and nine inches tall and had a sharply sloping forehead. His teeth are long and three are missing in front. He wore a blue shirt and bib overalls.

The right pocket of the overalls was turned inside out and although the body bore no shoes, the insole of a shoe was found clinging to the right foot.

His hat was under his head, indicating that he had not floated in the river.

Whether the turned pocket indicated robbery, Coroner Orelli could only guess; but it was believed the circumstance of the insole indicated the man had worn shoes which had been taken from the body.

It was believed the man had been dead about two months.

The coroner left the body on the river shore, shrouded in the rubber sheet and covered with a small mound of sand, to await lower water in the river which will make it possible to carry the body down-stream to a trail, from which it can be brought out to Cock Robin Point.

The body was found Monday afternoon by Jay French, Joseph Natross and Otto Holm, who notified the Coroner Monday evening and Mr. Orelli.

Parlors Join In Installation

New Officers Seated Tuesday By Native Daughters And Native Sons

Marguerite Parlor No. 12, Native Daughters of the Golden West, joined with Placerville Parlor No. 9, Native Sons of the Golden West, on Tuesday evening in a meeting at which the officers recently named for the two groups were installed.

Georgia Gardiner, district deputy grand president, assisted by a group of members of El Dorado Parlor, at Georgetown, as grand officers, installed officers for Marguerite Parlor as follows:

Pearl Tinney, past president; Mary Sweeney, president; Mary Lyons, first vice-president; Bernice Shuman, second vice-president; Ethel Wickes, third vice-president; Gertrude Steffens, marshal; Georgia Ball, organist; Margaret Wilson, recording secretary; Louella Shepard, financial secretary; Esther Dugan, treasurer; Annie Venne-witz, inside sentinel; Geneva Rossi, outside sentinel; and Nora Gray, Annie Jaeger and Ruth Lyon, trustees.

Visitors included Mildred Lefevre, district deputy president for El Dorado Parlor.

Victor Leonardi, district deputy president, assisted by Harold Duden as marshal, installed the following for Placerville Parlor:

Leo Ench, past president; George Duffy, president; Robert E. Roberts, first vice-president; James Laniero, second vice-president; Ogden Hook, third vice-president; L. E. Barrett, marshal; A. H. Murray, outside sentinel; Clyde R. Berriman, recording secretary; T. F. Lewis, financial secretary; Lester McKenzie, treasurer; and William Wilkinson, trustee. A number of visitors from Sacramento parlors attended the meeting.

Following the meeting there were motion pictures at the close of which refreshments were served.

Pioneer Defends Youth; 'As Good As Ever'

STRATFORD, Ont., (UP)—The youth of today is just as good as the youth of 50 and 70 years ago, Mrs. Emily Boyd, Stratford pioneer, told interviewers on her 99th birthday.

Automobiles and other attractions have not made much difference.

said, and people were "just as Christian at heart as they ever were, even if fewer go to church regularly."

FOXES ARE FAMILY PETS at the home of Mr. and Mrs. B. E. Haslam, near Pilot Hill, and here are Lynn (left) and Jean Haslam (right) holding "Poxie" and "Loxie". The foxes are about six weeks old and were picked up by Lynn and Jean near their home about a month ago. Tiny things, they ran up to the girls like puppies. Now they are household pets, willing to romp and play, but they'd rather "just play" than be picked up. However, once you've picked them up, they don't mind, and will lay in your arms like a kitten. "Moxie", their brother, died.

Colliers, the national weekly, referred to Placerville and some other communities a few weeks ago as "slumber towns," and we note that the magazine can now include Sacramento in that classification.

The President, for sleeping purposes only, will be in the capital city of California Thursday morning for five hours, and thus Sacramento is only a "slumber town" on his itinerary.

Mr. and Mrs. William Martin were down from their resort at Strawberry Wednesday morning.

Harley Lewright was a visitor from his resort at Lake Tahoe, The Grove.

A. L. Richardson, Jr., was among those in the county seat Tuesday from Lake Valley.

Supervisor Dan M. Bassi joined other members of the board in a short meeting Tuesday.

James A. Irving was in town from his ranch home at Fruit Ridge Tuesday.

Mrs. Louisa Fleming was among the visitors from Green Valley in the county seat on Wednesday.

We learn that W. B. Lawson, of Waterman, California, has been engaged to teach at Placerville Grammar school filling the vacancy resulting from the resignation of Jack Parsons. Waterman, California, is the post-office at the Preston School of Industry at Ione.

The chamber of commerce meeting on Monday night, according to a notice sent members, will be a dinner meeting and ladies night, held at the Grove resort, Lake Tahoe, at 8 o'clock. Members are requested to use post-cards inclosed with the notice of the meeting in making reservations for dinner at \$1.25 per plate.

Mr. and Mrs. Matt Murray had as weekend guests Mrs. Murray's cousin, Mrs. Otto Vollmer and sons, Harry and Donald, and their friend, Bill O'Hern, all of Omaha, Nebraska. Harry Vollmer is in the Navy, assigned to the U. S. S. California, and the party continued to San Francisco where he was to join his ship. O'Hern is a University of Washington student.

Mr. and Mrs. Lester Longhurst and son, Clyde, left Wednesday morning for San Francisco, where they plan to visit Treasure Island, see the fleet which is in the bay and be on hand Thursday to join the thousands who will welcome President Roosevelt to the city by the Golden Gate.

J. H. Rhodes has been appointed exclusive dealer for Philco radios for El Dorado County, according to announcement recently made by the manufacturer and the west coast distributor. The 1939 models have already been announced and are on display at all dealer showrooms.

MAN SHOT, 30 HURT IN WESTWOOD RIOT

2,000 Men In Street Fight As I.E.U. Seeks To Rid Town Of Striking Lumber Workers

WESTWOOD, (UP)—Rioting in which one man was shot through the arm and 30 others suffered injuries from fists, clubs and other weapons broke out in Westwood today in an attempted purge of CIO strikers who forced the big Red River Lumber Company plant to close down.

Authorities estimated 2000 men were involved. Fighting started at dawn when several hundred members of the Industrial Employees Union, a company organization, marched into town with the announced intention of ridding it of strikers—members of the CIO saw-mill and lumber workers union.

An I. E. U. man was shot through the arm in an attack on the CIO's soup kitchen on the town's outskirts. Citizens said the kitchen was defended by strikers armed with rifles. After a terrific fight in which six shots were fired, the CIO defenders were forced to flee. The kitchen was demolished.

Captain Fred McClelland of the Lassen county unit of the state highway patrol advised his superiors in Sacramento he was "moving in with some men" after a call for help from the little lumber community. Sheriff Olin Johnson of Lassen county also responded from Susanville with a force of deputies.

Bad Check Charges Jail Carl Ziemann

Carl Ziemann was arrested by city officers Tuesday evening on complaint of James Mylechreest, charging him with issuing worthless checks.

Officers report they are advised that over a period of several months Ziemann issued five checks, which were returned to the parties to whom he had issued them bearing the notation "unknown."

He is held for a preliminary hearing before Justice of the Peace T. F. Lewis.

Augie Food Transport In Service Soon

LONDON, (UP)—A super 27,000-ton food transport motorship, with accommodation for 525 first class passengers and capacity for 16,000 tons of cargo, is to be launched on Tyneside on July 27 for service between Britain, South Africa, Australia and New Zealand.

The vessel which is to be christened the Dominion Monarch, is said by owners, Shaw, Savill and Albion Company, Ltd., to be the biggest ship ever designed for trade with Southern Dominions.

BEER CITED

LONDON, (UP)—Beer as an instrument for fostering world peace was recommended by Gen. Sir Ian Hamilton in an address at Chestnut. "There is only one way to stop war, and that is to let the rank and file meet and drink a glass or two of beer together," he said.

HUGHES ROARING OVER ARCTIC

Record-Making Globe Circling Airplane Due At Fairbanks, Alaska, Late Today

By PAUL LIEN

United Press Staff Correspondent
FAIRBANKS, Alaska, (UP)—Howard Hughes and his four world girdling companions raced at more than 200 miles an hour today toward the American continent and a sensational new aviation record.

Sending frequent radio reports of conditions aboard the \$200,000 monoplane, the millionaire flier pushed the craft toward Fairbanks over the great circle route from Yakutsk, Siberia, on the fifth and most dangerous leg of the 14,748 mile flight from New York to New York. He hoped to reach Fairbanks in 12 hours (about 8 p. m. EDT) and New York tomorrow.

With the mist blanketed Bering Straits, which separate the Asian and American continents, lying ahead, Hughes reported from time to time to west coast radio stations that all was well aboard the plane.

At 9:22 a. m. EDT a message relayed to his New York flight headquarters by an army station at Seattle, Wash., said that he was about 300 miles east of Yakutsk, where he had landed at 5:08 a. m. after putting 8911 miles behind him. That put him beyond the dangerous Verkhoyansk Mountains.

Hughes left Yakutsk at 8:01 a. m. EDT.

At Fairbanks, with 11,368 miles covered and 3380 to go, Hughes will pick up the trail—abandoned at Omsk, Siberia, for a somewhat shorter route—blazed in 1933 by the late Wiley Post, from whose world flight record of seven days, 18 hours and 49½ minutes the five fliers expect to top at least three days.

Auxiliary Seats New Officers

Mrs. Mary McBeth Succeeds Mrs. Wilna Larson As Head Of Legion Unit

The auxiliary of El Dorado Post No. 119, American Legion, was launched upon another year of promising activity Tuesday evening at an installation of officers at which Mrs. Mary McBeth was seated as president, succeeding Mrs. Wilna Larson.

The unit met at the War Veterans' Memorial Building and in addition to a large representation of the membership, there were present several visitors from Sacramento including District President Edith Wright, District vice-president Myrtle Clifford; district child welfare chairman Eleanor Reveal, and other members of the order at Sacramento.

Other officers installed include Florence Berry, first vice-president; Betty Maul, second vice-president; Laura Pierson, secretary; Ollie Irwin, treasurer; Josie Ward, marshal; Clela Prince, sergeant-at-arms; Lottie Pearson, historian; Mary Perchick, chaplain; and Jessie Stevens, Edith Rantz and Ethel Smith, members of the executive committee.

The meeting was followed by light refreshments and a social hour.

Brother Of County Man Buried At Sacramento

Funeral services were held at Sacramento Wednesday afternoon for James W. Rogers, 64, retired Delta district fruit grower and brother of Joseph W. Rogers, of this county, who died Saturday after an illness of two years.

Mr. Rogers was a native of Texas who moved to California in 1888 and to the Sacramento vicinity in 1919. He had retired in 1935. Three sisters and three other brothers survive him.

TOWER FOR FIREMEN

TOLEDO, (UP)—Firemen here will train under realistic conditions of smoke and flame, jumping into nets, smashing windows, and carrying victims from a new 68-foot training tower. Fires, built in the lower part of the tower, will accustom the fledgling firefighter to the heat and smoke.

George Langlois was a caller on Wednesday from the Ringgold section.

Giant Swordfish Fights Two Hours Off Catalina

AVALON, Santa Catalina Island, (UP)—Jimmy Neill today held a new record, a giant 387-pound marlin swordfish he landed after a two-hour struggle. The fish leaped clear of the water eight times, the splash visible for miles.

4 BILLION DOLLAR DEFICIT FORECAST

Treasury Going "In The Red" At Rate Of \$7,500 Every Minute For 12 Months

By SANDOR S. KLEIN

United Press Staff Correspondent
WASHINGTON, (UP)—President Roosevelt spread before the nation today the darkest budget estimates since 1936 with a forecast of record breaking New Deal spending and a treasury deficit of approximately \$4,000,000,000.

The report dealt with the fiscal year 1939. On the basis of figures presented today the treasury will be going into the red at the rate of about \$7500 a minute during the entire 12 months.

Mr. Roosevelt's out of season fiscal summation turned a corner in New Deal trends. It ended the period of increasing revenue, decreasing expenditures and diminishing deficits, but continued the national debt toward new high ground.

He estimated that the national debt would be \$40,650,000,000 when the 1939 fiscal year ends in approximately 11½ months. In that period the new deal plans to spend almost \$9,000,000,000.

Charging responsibility for decreasing revenue and necessity of additional spending to "business recession," Mr. Roosevelt today revised the 1939 fiscal year budget estimates which originally were presented to congress when it convened last January.

SEVEN GUARDSMEN GO TO ANNUAL CAMP NEAR SAN LUIS OBISPO

Seven young men of Placerville and vicinity left Monday with the National Guard Company at Auburn to attend the annual encampment of the organization near San Luis Obispo.

In the groups are Sergeants George Smith, Jr., and Bill Carmen, Corporal Bill Sayers, and Privates Virgil Gearhart, Cliff Swesey, Rance McFarland and Joe Ronzone.

New CCC Unit Arrives At Snowline Camp

Company 3561, from the Kentucky-Ohio area, arrived Tuesday in Placerville under the command of Second Lieutenant J. D. Andrews and Second Lieutenant F. E. Kiser.

The company takes the place of the Texas unit, commanded by Second Lieutenant Y. E. Shelton, which entrained for its home state on Monday.

Robert Von Pertz, recreation director at the camp, continues in that capacity with the newly arrived unit.

"Mattson Suspect" Held Mentally Deranged

TACOMA, Wash., (UP)—Chief William Cole of the state patrol said today 32 year old Frank Olson, held as a suspect in the kidnap-slaking of Charles Mattson, had made three or four confessions, was obviously mentally deranged and issuance of a warrant was not justified. Cole said the suspect would be released shortly.

Quentin Roosevelt's Grave Decorated

CHATEAU THIERRY, (UP)—Sturdy French peasants will pause in their work tomorrow to pick flowers for the isolated grave of Lieut. Quentin Roosevelt who 20 years ago today crashed to death behind German lines in his flaming airplane.

The son of America's "TR" is buried where he fell, on a once blood-stained battleground, now a wheat field vivid with the same scarlet poppies that grow in Flanders fields. At the request of Mrs. Edith Kermit Roosevelt the grave of her youngest son—dug for him by his German foes—has remained untouched through two decades. Quentin Roosevelt's companions sleep in the nearby American cemetery at Fere-en-Tardenois.

F. D. R. SLEEPS AT SACRAMENTO

President, In Nevada Today, Has No Public Appearance Scheduled At Capital

By FREDERICK A. STORM
(United Press White House Correspondent)
ABOARD PRESIDENT ROOSEVELT'S SPECIAL TRAIN, Enroute to San Francisco, (UP)—President Roosevelt, nearing the end of his transcontinental tour in behalf of "liberal" candidates, will make three appearances today in Nevada where Senator Pat McCarran is seeking reelection. It was not expected that Mr. Roosevelt would mention McCarran as one of the "forward looking" senators whom he would prefer to have in Washington. McCarran will board the president's special train as it enters Nevada. Albert Hilliard, opponent of McCarran, also will be a guest on the train. Hilliard is running on a platform of support for the new deal.

SLEEPS AT CAPITAL
SACRAMENTO (UP)—Provided he adheres to a schedule already outlined, President Roosevelt will make no public appearance at the state capital. The special train will halt in Sacramento at approximately 2 o'clock tomorrow morning for a five-hour lay-over.

The presidential party will leave for Crockett at 7 tomorrow morning, arriving two hours later. They will be joined there by Republican Governor Frank P. Merriam and his aides, who will accompany Mr. Roosevelt on his tour of the San Francisco bay area.

Driver Admits Killing Boys

Oakland Police Trace Autoist Who Ran Down Group Of Five On Street Monday Night

OAKLAND, (UP)—John Olsen, 22, Oakland airport instructor, was held by police today as the hit and run slayer of Joseph and Timothy Kelly, aged 5 and 3, on an Oakland street Monday night.

A day of patient checking of registration cards of automobiles of the make and type which was seen ploughing through a group of five pedestrians last night led police to Olsen's home. Two policemen rang the bell and were admitted by Olsen's parents. They found him in bed, sobbing.

Taken to Police Chief Bodie Wallman, Olsen made a complete confession.

The entire East Bay area was shocked by the tragedy in which the two Kelly boys were killed and Mr. and Mrs. Joseph Kottinger, who were walking with them, were badly injured.

The two little boys were buried today in the St. Mary's cemetery. Mr. and Mrs. Kottinger were recovering from their injuries, and their son, Donald, 4, was unharmed.

"BIG THREE" HOPEFUL ON NEW SPEED MARK ON SALT FLATS

SALT LAKE CITY, (UP)—Followers of motor speed racing here aren't taking any wagers that the present record of 314.4 miles an hour will survive new onslaughts by "the big three" this summer on nature's speedway at the Bonneville salt beds near here.

Reports from Capt. George E. T. Eyston, present record holder, and his rival, John Cobb, and from Indianapolis where Ab Jenkins is turning out a new streamlined speedster, lead followers here to believe the present mark will be lowered this season.

Eyston, who is bringing his "Thunderbolt," was the first of the "big three" to arrive here for trial runs. Jenkins, a native of Utah, will drive two new cars. One he will use for endurance driving and the other for a crack at the world speed mark in August.

Cobb is scheduled to arrive sometime in August and will bring with him a new gilt-edged machine reportedly capable more than 350 miles an hour.

RUTLAND, Vt., (UP)—Three Vermont "hams," radio amateur operators, generating their own power with aid of an old automobile motor, recently set up radio transmitter and receiving sets at Shelburne Pass and contacted 109 United States and Canadian stations within 26 hours.

PARADE OF SPORTS

By HENRY McLEMORE
(United Press Staff Writer)

SHAWNEE-ON-DELAWARE, Pa. (UP)—Harry Cooper, a hay fever victim, is playing in the National P. G. A. Championship here with a doctor in constant attendance.

Helen Jacobs is limping about with the aid of a cane.

Max Schmeling is a patient in a Berlin infirmary.

Dizzy Dean's arm is dead.

Paul Dean and Schoolboy Rowe are convalescing in the Texas League.

Archie San Romani has growing pains.

Don Hume, mightiest of stroke oars, has the all around aches on alternate Tuesdays.

And Seabiscuit, War Admiral, Lawrin and Dauber—our four top horses—all have the miseries.

All of which prompts me to ask: what are we drifting in sports?

What is the future of athletics if our athletes, supposedly the hardiest breed of all, continue to crack and break and bend at the rate they have in the past year?

My guess is that unless something is done to toughen our sports competitors the arenas of the future—the Madison Square Gardens, the Soldier Fields, the Polo Grounds, the Belmont Parks, the Olympic Stadia, the Wimbledon—will be gigantic hospitals.

Surgeons will replace promoters. Internes will take over the duties of the graduate managers. Referees and judges will be replaced by diagnosticians and dietitians. Sanitariums will be the favorite training sites for fighters and ball clubs will do their spring exercises in the back yard of the Brothers Mayo.

Of course, the shift on locale from the arenas of today to the hospital wards will bring about a decided change in the types of competition. Instead of the 16 pound shot field men will tell the 16 pound hot water bottle. The big dash event will be the wheel chair race from ward A to the X-Ray room with a free set of plates going to the winner and a set of hand carved crutches to the runner-up.

Spectators will have to wear gowns.

YARD FLAGPOLE STOLEN

QUINCY, Mass. (UP)—Add odd thefts: Mrs. Michael J. Walsh notified local police that a 25-foot flag pole had been stolen from her front yard.

and masks to keep from contaminating the fragile athletes.

Boxing will undergo a great change. Jack Blackburn will be removed from Joe Louis' corner in favor of a Johns Hopkins M. D. The round by round story will be dictated by Dr. Dafee and published on a fever chart. Book-makers will set up their pitch in clinics and shift their odds to suit the latest bedside bulletins. Johnson and Johnson will replace Everlast as the big boxing goods manufacturer.

Golf clubs will undergo a great and drastic change. A big seller will be a mashie that can readily be converted into a stomach pump of a stethoscope with one twist of the wrist, even an injured twist. The National Open winner will get a free trip to Baden-Baden for the baths instead of a cup and a check.

Horses will get one pound off for each fevered fetlock and when ridden by mere medical students will get the apprentice allowance. Charley Kurstinger, Eddie Arcaro and Basil James will be set down for ten days at the fashionable polyclinic meeting for carrying dull scalpels and failing to attaining a passing grade in anatomy.

Exams Set For Posts Under Civil Service

The United States Civil Service Commission announces open competitive examinations to fill present and future vacancies in the positions of Aircraft Instrument Mechanic, Junior Instrument Mechanic and Aircraft Instrument Mechanic's Helper in the State of California and in the Territory of Hawaii; also an open competitive vacancies in the U. S. Army Transport Service, War Department, with head-

quarters in San Francisco, California. Full information regarding salaries, requirements, etc., will be found in the respective announcements.

The necessary forms may be obtained from the Manager, 12th U. S. Civil Service District, Room 119, Federal Office Building, San Francisco, California.

Applications must be on file with the manager, 12th U. S. Civil Service Dist., Room 119, Federal office Bldg., San Francisco, not later than July 26, 1938.

BRONCHO BILL

BOSS LANNIN OFFERED \$1,000 REWARD TO SPEED THE HUNT FOR THE VANISHED RIDER.

THANKS FOR THAT OFFER MISTER LANNIN, ON BEHALF OF MY UNCLE CLEM BARTON.

OH, FATHER OWES YOU MUCH MORE THAN THAT BILL FOR SAVING MY LIFE!

WHEN DID THIS BOY SAVE YOUR LIFE?

WHEN THE CATTLE STAMPEDED LAST WEEK AND MY PONY THREW ME.

AND YOU TOLD ME HE WAS A TENDERFOOT?

WELL, YES—HE IS—YOU SEE—

—A REAL COWBOY WOULDN'T HAVE DARED TO RIDE INTO THAT RIDE LIKE BILL DID.

ER—AH—THAT'S WHY I DID IT SIR—NOT KNOWING HOW DANGEROUS IT WAS.

McADOO CANDIDACY GETS ENDORSEMENT OF LABOR GROUP

SANTA BARBARA (UP)—Sen William Gibbs McAdoo and Sheriff Daniel C. Murphy of San Francisco hold the endorsement of the California Federation of Labor as candidates respectively for U. S. Senator and California Governor.

Sen. McAdoo's endorsement as a candidate to succeed himself was accepted after a committee report was heard recommending the junior senator as democratic standard bearer and Ray L. Riley as republican. Because of announced non-partisan objectives, Riley was rejected.

No preference was expressed between the candidacies of James M. Hyde, republican, and Jerrold L. Seawell, democrat, for lieutenant governor, and no endorsement was made for attorney general. Charles G. Johnson was favored for state treasurer, but there was no selection for comptroller.

Garrison Revenue Bond Act IS Short Cut To Greater Debts

By RALPH H. TAYLOR

(Executive Secretary, Agricultural Council of California)

EDITOR'S NOTE:—This is the concluding article in a series dealing with the recommendations of the Agricultural Council of California on ballot measures proposed for submission to the people at the November election.

"The power to tax is the power to destroy!"

California voters, when they go to their polling places at the forth-coming General Election, need to remember that simple but undeniable truism—and act accordingly.

All voters—and particularly all common property taxpayers—also need to remember, when they cast their ballots, that bonds are debts; AND THAT TODAY'S DEBTS ARE TOMORROW'S TAXES.

California has desperate need to return to sound values; it has a vital need to recognize that the only way to halt the terrific uprush in taxation is to crack down on free-handing spending. And it has compelling need to understand that public bonds are private mortgages—mortgages on farms, homes and business properties; mortgages which can be foreclosed, just as surely as mortgages held by a bank can be foreclosed.

If our six per cent share of the federal debt is included, California's public indebtedness now totals \$3,661,000,000. And if that stupendous total is divided by 900,000—the number of common property taxpayers in California, whose property must stand back of all public borrowings—the mortgage already standing against every farm and home and every piece of real estate in California averages more than \$4,000!

Under the circumstances, what should be the attitude of farm voters (and, in fact, all owners of real property) toward the so-called Garrison Revenue Bond Act?

The Garrison Act, ostensibly, is designed to authorize the creation of public utilities commissions and the issuance of revenue bonds by various governmental units for publicly-owned public utilities.

But actually, the Garrison Act abolishes, insofar as revenue bonds are concerned, the traditional two-thirds vote requirement for the issuance of bonds and would permit public borrowings by a bare majority of those actually going to the polls. In reality, that would mean that bonds could be issued, IN ANY AMOUNT, without any limitation, by a small minority, as only a fraction of the registered vote usually turns out for bond elections.

Actually, the purpose of the Garrison Bond Act is to relax restrictions—to make it easier to plunge the community into debt. Yet paradoxically enough, the same act which would require only a simple majority vote to approve bond issues and new projects, provides that two-thirds of the voters must approve the dissolution of any unsuccessful enterprise, or the sale or lease of any property which has proved unprofitable.

In short, the Garrison Act makes it easier to get into debt—and harder to get out.

The Agricultural Council of California, representing the state's major farm cooperatives, with more than 70,000 farmer members, recommends a "No" vote on the Garrison Bond Act.

Its recommendation of opposition to the act is predicated solely on the fact that financial provisions of the propo-

sal—particularly the section nullifying the two-thirds vote requirement on bond issues—are unsound and dangerous. The question of public ownership was not considered by the Council, as the act would endanger sound public ownership projects and private business an industry alike.

California farmers, when they consider this proposal, should keep in mind the following fundamental facts:

There are 3,200,000 voters in California; there are less than 900,000 common property taxpayers. If the two-thirds vote requirement is abolished, property owners would be heavily out-voted; yet property owners would be required to pack the load when projects turned out disastrously. The contention that revenue bonds are "different"—that they are only a obligation against revenues and can not become an obligation on property owners in the district, is not borne out by facts. Seattle, with a bankrupt municipal railway system (financed by revenue bonds) has defaulted and is now appealing to the state to pull the project out of the red. At the special session of the California State Legislature, early this year, an attempt was made to use gas funds to pay off part of the cost of the San Francisco-Oak-

TWO PROSPECTIVE BRIDES FOR NEW JERSEY WIDOWER

MATAWAN, N. J. (UP)—Judson Van

Arsdale, a widower, who has two prospective brides in his cottage and has been trying for a week to make up his mind which to marry, announced that he had a letter from a man who wants to marry the one he rejects.

The women, May Meyers, 57, of Washington, D. C. and Nellie Davis, 40, of Paris Ill., both responded to Van Arsdale's advertisement in a matrimonial agency magazine.

The letter from Brooklyn said: "I would like to correspond with the lady who may be the loser in this strange affair. I am 44 years of age and would be interested in a decent person. Trusting that you will make possible a meeting, and that I will hear from you as to the chances, I am sincerely yours."

Van Arsdale said he had turned the letter over to one of the women. He didn't say which one.

Jond Bay Bridge (another revenue bond project), even though the bridge had been in operation less than a year.

"Debt" is debt, no matter by what name you call it. And bonds are mortgages. Farmers, when they go to the polls in November, should keep those elemental facts in mind. And the Garrison Bond Act, if California is to return to sanity in expenditures—if it is to put a halt to the dangerous practice of living on borrowed money—should receive a thumbs down verdict.

4 Jokers In Freakish Deck Of Cards

VANCOUVER, B. C. (UP)—Now is the time for all good men to watch their cards.

The recent five-suit deck of 65 cards is getting around the country, and now W. Felder of Vancouver has invented another deck of 64 cards, containing four suits of 15 cards each and four jokers.

Felder believes the pack is practically cheat proof, and that it will eliminate much of the element of luck in distribution and add to the mathematical qualities of the game.

Felder's deck has additional one-spots in each suit, an done more honor per suit, the jockey, ranking between the jack and the queen. The additional jokers are called grandmasters.

Potatoes from Kern County have been shipped to the Hawaiian Islands this spring.

WOOL PRICES GO HIGHER IN FALL, SAYS FORECAST

WASHINGTON (UP)—Increased mill consumption of wool expected this fall will be followed by higher prices to growers late this year, the Agriculture Department predicted.

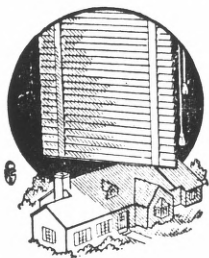

Wool prices in the immediate future, however, probably will change little, the department said.

Mill consumption during May was the highest since September, but 43 per cent below May, 1937, the report said. Consumption during the first five months of this year was 50 per cent below the same period last year.

GLOBE, Ariz., (UP)—Joseph P. Sassoe owes his life to a ringing doorbell—and a traveling salesman was not the ringer. A fire short-circuited the current, rang the bell, and damaged his home causing an estimated loss of \$9,000.

SOIL SERVICE PLACED ON "MAINTENANCE" BASIS JULY 1

Glen E. Paxton, Project Manager of the Soil Conservation Service, announced today that the Placerville Project went on what is known as "Maintenance" on July 1.

He said the fact that this Project was placed on maintenance does not indicate a discontinuance of the Project or abandonment of their present obligations. It has always been the established policy of the Service to designate the point where, due to the fact that sufficient acreage has been placed under cooperative agreement to insure the compact demonstration of effective methods of erosion control, no further lands need be included.

A sufficient staff will, however, remain on the area to assist cooperating farmers in continuing the work under way until the demonstration has been brought to a successful conclusion. Technical advice will continue to be available to all farmers within the Project area and to interested farmers in the nearby counties.

DIZZY DEAN'S ARM FOUND OKAY; PITCHER MAY WORK AGAIN SOON

CHICAGO (UP)—Dizzy Dean, who has been idle the better part of two months with a mysterious "kink" in his right arm, may start pitching again for the skidding Chicago Cubs in a week or 10 days. Manager Charley Grimm indicated today.

Diz started toughening up his \$250,000 arm immediately after owner Phil K. Wrigley and Grimm learned from a physician that pitching will make Dean's arm no sorer and will do no further damage. He peppered the ball to outfielder Augie Galan during a short workout yesterday and, without bearing down, appeared to have as much stuff as he had shown in the four games he pitched this season before he was sidelined May 4.

CHAMPION ANGLER

MILTON, New South Wales, (UP)—Mrs. A. W. Sams of this city won the Australian championship and a \$2,000 prize in the big game fishing competition during the 150th Anniversary celebration of the founding of Australia by landing a 330-pound marlin.

Central California has the largest crop of volunteer hay that it has produced in many years.

Farm Inspection Starts Soon

Farmers Who Fail To Respond To Questionnaire Will Not Be Visited In Check-Up

By B. E. HASLAM

Secretary
Agricultural Conservation Association

Inspection of farms for compliance for payments under the 1938 Agricultural Conservation program will begin soon in El Dorado County. The local office will endeavor to complete this work early enough this year so that all checks will be received and distributed before Christmas.

Those farms which have only orchard and whose cover crops were inspected this spring, will probably not be visited again, unless for checking on required supplemental practices, such as contour ditching, application of mulching material, construction of terraces, etc., on orchards of croplands which are subject to water erosion. Such orchardists will be required to take steps to prevent such erosion before receiving their payment, even though they have turned under a cover crop on that land.

An estimate is being made in this office of all farms which may have performed some soil conserving practices eligible for payment, and which have not been previously inspected this year. These farmers will have mailed to them a questionnaire to fill out and return, listing the farming operations for 1938. If it is apparent that they have qualified for a payment, then an inspector will be sent out to visit that farm and complete a map and papers relative to the practices performed.

Farmers who receive a questionnaire and fail to fill it out and return it, will be assumed to have done nothing toward participation in the program and are not interested in applying for a payment, and that farm will not be inspected.

Farmers who have performed some soil conserving practices, other than orchardists who have already been inspected, and who do not receive a questionnaire, should write or call at the Conservation office, 489 Main St., Placerville, and discuss their year's operations so that if they are eligible for a payment they will receive the amount to which they are entitled.

Some of the practices most applicable in this area are: planting of mixtures of pasture grasses, clovers, alfalfa; cover crops; application of superphosphates, straw mulch, etc.; contour ditches; small dams; reseeding of pastures; renovation of depleted stands of alfalfa, grasses, and clovers, etc.

The Range Program is separate from any of the foregoing and inspection on that will be performed later in the fall after all preliminary examinations and approvals have been concluded and mailed to the operators.

DEMOCRACY IN DENMARK NEARS OPENING OF NEW ERA

COPENHAGEN, (UP)—Denmark shortly will have what is said to be the world's most democratic institution.

For more than a year a committee has worked drafting the new constitution, which is sponsored by the government formed of the Social-Democrat and Radical parties. As the constitution also is supported by the Conservative party, it is expected to become law within 12 months.

Theoretically the new constitution abolishes the system of two houses of parliament. In practice, however, the new parliament will consist of two "departments" or "chambers" on an equal footing.

Separated 34 Years, Two Meet Again

MONTREAL, (UP)—A brother and sister have been reunited here for the first time in 34 years.

They are Mrs. A. Banks, of Montreal, and Dr. A. Hearn, of South Africa. Mrs. Banks left England as a child to come to Canada 34 years ago, leaving behind her 8-year-old brother. The brother, Dr. Hearn, grew up and went to South Africa, where today he practices in Cape Town.

2,200 Year Old City Found In France

AVIGNON, France (UP)—A prosperous Greek city of 300 B.C. has been uncovered by archeologists digging in the Provence district of France, a district which numerous Roman ruins already have made an archeologists' paradise of the area.

A dozen villas, 52 Greek altars, a pagan temple and a quantity of Greek pottery, busts and jewels indicate that life must have been prosperous and pleasant 2,200 years ago in the Greek town which is now called "The Plateau of Antiquities" at St. Remy.

San Joaquin Valley growers will ship Elberta peaches in smaller boxes this 5j1tc year.

Birth of a son, Benjamin Louis Haley, to Mr. and Mrs. Robert L. Haley, of Diamond Springs, at Placerville Sanatorium on July 8, was recorded Wednesday at the county courthouse.

River Victim Unidentified

(Continued from page 1)

left Tuesday morning at 4 o'clock for the scene.

"We had to crawl under brush to get down to the river, and came back the same way, so it was virtually impossible to bring the body out at this time," Orelli said Wednesday.

The coroner said the body was not in good shape, but that his examination failed to reveal any evidence of wounds or bruises which might suggest the cause of the man's death.

As far as he was able to learn, no one in the vicinity seems to have known the man.

Mr. Orelli said he will take finger prints and will check on other possibilities which may lend some light on the man's identity.

RECORD MILE PLOTTED FOR TRACK MEET ON JULY 17TH

NEW YORK, (UP)—Joe McCluskey, veteran New York Distance runner, will set the "perfect pace" for Archie San Romani of Kansas to break the world's mile record at the Hibernian track and field meet July 17 in the Randall Island stadium.

McCluskey, director of the meet, said that he would sacrifice any hope to win the Hibernian mile for himself in the hope that San Romani could break the world mark of 4:06.4 set by Stanley Wooderson of England.

"I promise to do seconds for the first quarter, then I'll slow down to 62 for the next one," McCluskey told Romani. "I can make the third 440 yards in 63 seconds, and that will give you 3:05 for three quarters of a mile. I'll be getting tired by then, so you step out in front and run the last quarter in 60 or 61 to break Wooderson's record. I'll carry a stop watch so I can check myself at each 110-yard marker, so all you will have to do will be to follow me."

Running against him, San Romani will have the recently married Gene Venke of Pennsylvania; Blaine Rideout of North Texas State Teachers College and Ralph Schwartzkopf of Michigan.

Huge Tiger Eye Ring Made By Convicts

JACKSON, Mich. (UP)—Rings set with semi-precious stones cut by the inmates are featured as a concession at Southern Michigan Prison here.

The prisoners who operate the concession, which is self-sustaining from sales made in the lobby, have made what is believed to be the largest ring in the world. Set with a two-inch square Tiger eye, the ring is large enough to fit the elbow of the average man's arm.

ERRING DRIVERS MAY BE CASE FOR CLINICS, SAY PSYCHOLOGISTS

COLUMBUS, O., (UP)—Clinics rather than courts were suggested today by two Ohio State University professors as part of the answer to the nation's traffic problems.

The suggestions were made in their new book, "Psychology and the Motorist," just released and written by Dr. Herbert A. Toops, of the department of Psychology, and Dr. E. Edson Haven.

In their book, described as "the first examination of traffic accidents from the standpoint of the driver," Toops and Haven endeavor to tell what is wrong with drivers, with pedestrians, with automobiles, roads, signs and signals, and with traffic crusades.

Discussing "the tragedy of justice," Toops and Haven say: "Possibly the violator has a nagging wife at home whom he is unable to manage. Perhaps his employer is equally demanding without the possibility

TAKE NOTICE
